

MOBILE CART R-200

DESCRIPTION

This modern street cleaning cart **R-200** consists of two containers and a structure.

- The material of the containers is medium-density polyethylene which grants them higher resistance and avoids deformations.
- UV protection.
- Highly resistant to weather conditions.
- The hermetic lid is easy to detach.
- The trash cans can have different colors depending on the type they collect.
- The tubular frame consists of two tractor-type wheels of 8" (rear) fixed to an axle and one caster wheel of 3" for easy transportation.
- The structure has dual protection against corrosion.

FUNCTIONALITY

- The street cleaning cart **R-200** is perfect for trash collection and the separation of different types of residues.
 - Ideal for trash collection on public roads or buildings.
 - Manual discharging.
 - Easy to clean.
 - Avoids sources of infection.
