

ISOTHERMAL BIN

600

DESCRIPTION

The **ISOTHERMAL BIN 600**, made of medium-density polyethylene, has greater resistance to impacts and avoids deformations.

- It has resistance to any kind of treatment and under the worst conditions.
- UV protection.
- Weather-resistant.
- It has a forklift space for a three-pallet capacity.
- Drain plug.
- The inner rounded edges don't allow any product or water buildup.
- It has a polyurethane foam fill that works as an insulating material and preserves the temperature for 3 to 4 days.
- Detachable lid and hermetic sealing.

CUSTOMIZATION

It can be labeled with the legend of the type of material it contains or your logo according to your needs.

FUNCTIONALITY

The **ISOTHERMAL BIN 600** was designed for product storage that requires a stable temperature.

- Suitable for the management, treatment, storage, and transport in the best conditions of every product that needs preservation.
