# DRUM FUNNEL WITH LID

## DESCRIPTION

The material of the **DRUM FUNNEL WITH LID** is medium-density polyethylene which gathers higher resistance to impacts and avoids deformations.

- The lid of the drum funnel has a hinge.
- A simple tubular object.
- It facilitates the entry of liquids.
- It can have different purposes depending on its use.
- UV protection.
- It has resistance to weather conditions.
- It covers the top of the 200 L drums, perfect for the drainage surface, and keeps them clean.
- The hinged lid prevents filth and contaminants from entering and avoids losing it.
- The funnel doesn't move when the lid is lifted.
- The side walls of 3.9 in. offer additional protection.
- It keeps bottles straight when discharging.

## CUSTOMIZATION

According to your needs, it can be labeled with your logo or the caption of the type of material it contains.

## FUNCTIONALITY

- The **DRUM FUNNEL WITH LID** has walls and is perfect for liquid waste collection in 200 L drums.
